**The Powerful, Affordable Way to  
Manage Your Vehicle Scale Data**

---

**METTLER TOLEDO**

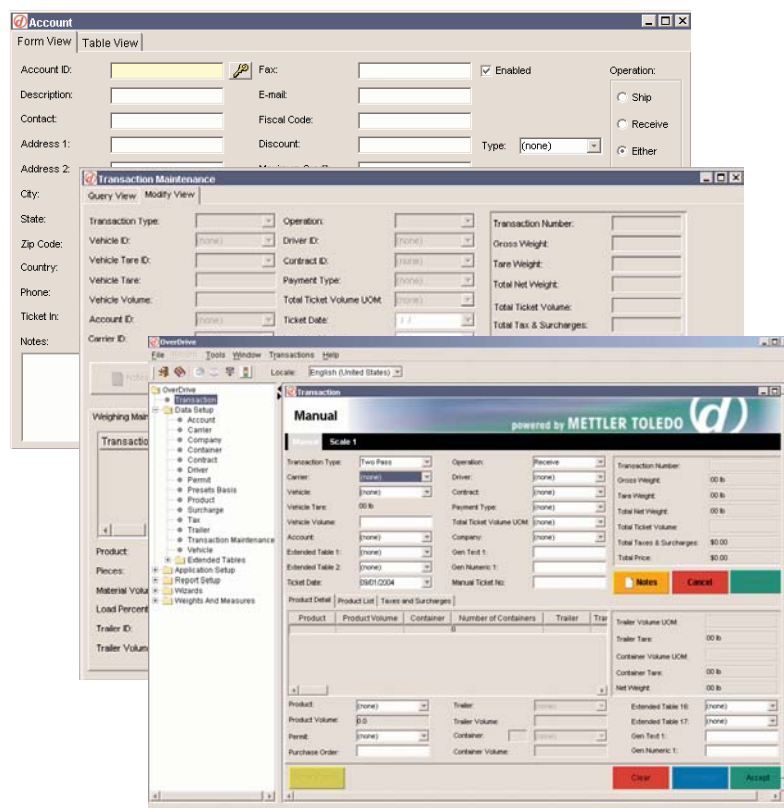

**OverDrive1<sup>st</sup>** is an easy-to-learn, easy-to-use, complete vehicle scale management system. It requires no proprietary hardware and is totally compatible with a wide range of competitive scales and scale indicators. It may be integrated via a standard serial connection or using a METTLER TOLEDO JAGXTREME controller — the preferred Ethernet communications connection.

Designed for basic vehicle weighing applications, **OverDrive1<sup>st</sup>** delivers a full range of features including:

- Control of 1 scale plus manual scale
- Sybase Adaptive Server Anywhere 7.0 single user database
- Transaction screen
- Database tables for account, carrier, company, container, contract, driver, permit, product, surcharge, tax, trailer, vehicle, and 4 additional extended tables
- Two generic text entry fields, two numeric entry fields
- Presets and transaction "learning" capability
- Password protected user logon
- Transaction maintenance
- Weights and Measures log
- Standard reports and tickets
- Database imports/exports
- Networkable for multi-user applications

Whether you choose **OverDrive1<sup>st</sup>** or the full version of OverDrive 2.0, with its host of additional options, you can be sure you are investing in a world class product from a world class solution provider, METTLER TOLEDO.

	<b>OverDrive1<sup>st</sup></b>	<b>OverDrive 2.0</b>
ODBC compliant database	•	•
Developed in Java	•	•
Fully networkable for multi-users	•	•
Standard reports and tickets	•	•
Controls up to six vehicle scales	•	•
Configurable user interfaces		•
Optional unattended weighing		•
Optional industry specific modules		•
Presets with transaction "Learning"	•	•
Extended tables	4	25
Advanced pricing with formulas		•
Transaction wizards		•
Database imports/exports	•	•
